Employee Appreciation Luncheon

April 27th, 2016

11:30-1:00 PM

Connoquenessing Country Club

Speaker: Doreen Welsh,
Flight Attendant from Flight 1549

Doreen Welsh

Ninety Seconds To Impact!

If you had only 90 seconds to focus the survival skills of those around you, what would you do? This is the question Doreen asks, it's the question she answers, it's the story she tells - it's the story that has audiences in tears one minute and laughing out loud the next.

Doreen takes participants on the emotional journey of that fateful day which became known as The Miracle on the Hudson. Doreen likes to say that had one person perished during that crash it would have been known as the US Airways Flight 1549 crash. Because of the heroic deeds of five crewmembers - who had never met until that day - it was a miracle!

In addition to being a captivating program, Doreen provides powerful points applicable to any audience, regardless of their occupation or background. Her program inspires audiences to develop their survival skills and manage their personal resources through proper training, skill development and risk management. She'll help your audience see the necessity of maintaining their situational awareness, the importance of engaging in team participation and the necessity of continued training and refresher programs.

As Doreen likes to say, "What would you do if you only had "90 Seconds to (make an) Impact?"
